INDEPENDENT.

NEBRASKA LETTER.

HEBRON, NEB. JAN. 30, 1871.

MR. EDITOR:—I have been requested by one of the readers of the Independent, to give a description of the climate of Nebraska. It would take years to be able to give an exact account from a person's own observations. I will relate what I have learned from enquiry, papers and observation.

It is confidently asserted that the the climate of Nebraska is not surpassed by any in this latitude. The physical features of the country and its height above the Mississippi Valley insure a dry, pure, and salubrious atmosphere. The streams are swift flowing, and there are no swamps to breed miasma or poisonous exhalations. In general, each country has a distinctive type of diseases to which its inhabitants are liable; in Nebraska their are no prevalent diseases. Sickness is rather an accident of life, than an expected incident of living in the state. Mere passers through the state experience the stimulation of its highly oxygenated and remarkably pure air. To those suffering with weak and diseased lungs, the air acts as a specific remedy by its vigor, relieving the labor of the lungs, enabling them more effectually to combat disease.

The climate is as health giving as that of Minnesota, without the rigors of a Minnesota winter. The dryness of the air is so great that dead animals will often dry up without decaying. To this cause it is owing that cold, catarrh, influenza, and other kindred maladies, so common in the east, are here almost unknown, and seldom follow exposure to to storms and sudden changes of temperature,

The winter is short, mild, open and dry; the sun almost always unclouded; very little rain or snow falls, and the snow lies on the ground but a few days. This winter is no different from others, yet farmers continued plowing until late in December, and during the month but one severe storm which lasted but a few days, interrupted out of door work. In our latitude stock winters without much shelter, although there are days when it would be better if they were sheltered from the wind, which is the greatest inconvenience they are subjected to. I see by the statistics that only ten inches of snow fell during the winter of 69-70, and not more than five inches at one time. In no case did it lie more than a few days.

"The oldest inhabitant" I have conversed with on the subject, says:—Spring opens early, small grains are often planted in February, but generally in March. The summers are long and warm, but the prairie breezes are constant as the sea breeze on the coasts. The heat is not oppressive. The nights are always favorable to sleep, and so cool as to make a considerable amount of bed clothes necessary for comfort, even in warmest weather. The autumn skies are unclouded. This part of the year is lovely beyond description, I never saw a lovelier one than the last. On calculation I find the spring average temperature is 49 degrees; summer, 74 degrees; autumn, 51 degrees; winter, 30 degrees. This is a higher mean than that of any other state in the same latitude, even those not so elevated above the sea. The difference in favor of Nebraska is mainly due to the unclouded, sunny winters.

The above is the most reliable information I could obtain, and now I will call the readers attention to our little town. We are still alive and the march of improvement is rapidly pressing onward.

Where five months ago the prairie grass grew undisturbed, and the sod was still unbroken, is now a store, hotel, postoffice, and printing office; and piles of lumber waiting for the carpenter's plain and hammer to be constructed into dwellings, offices and stores. Our great source of pride is our prospective paper, to be known as the Hebron Journal. We have raised a sufficient sum to ensure its support, and are determined to make it a great success. Jefferson county now has thousands of inhabitants, and they are all anxious that our enterprise should succeed. All the homesteads near here are now taken, and speculators land is coming into market, and that will soon be taken. This may not be as good a corn country as Illinois, but for cereals it is said to be far superior.

Respectfully,

FRANK B. TANNER.

LITTLE THINGS AND GREAT RESULTS.

A gnat choked Pope Adrian to death which caused wonderful changes in the destiny and history of the whole world.

A counsellor of Rome was strangled by a hair in the milk which he drank. This event caused the most important result that ever transpired in his family.

Anoceron one of the lyric poets is said to have lost his life by swallowthe skin of a raisin. The world then lost one of the most illustrious of its poets and writers.

A destructive war between France and England was occasioned by two boy princes.

The Grasshopper War, which took place about the time the Pilgrims came to New England in the Mayflower, between two Indian tribes was brought about in this way: An Indian woman with her little son, went to visit another tribe. The little fellow caught a large grasshopper and carried it with him. A lad from the other tribe wanted it, and he refused to give it up. A quarrel ensued which soon drew the fathers and mothers into the dispute, and ere long the chiefs were engaged in war which nearly exterminated one tribe.

Several centuries ago, some soldiers of Modena carried away a bucket from a public well at Bologna, which was the cause of a long war; and the king of Sardinia was imprisoned for twenty-two years, where he died.

An English and French vessel had a quarrel about which should be supplied first from a certain well of water, which cost one thousand lives.

The great philosopher, Newton, saw a child playing with soap bubbles, which led him to his most important discovery in optical instruments.

Stephen Mortgolifer saw a shirt waving when hung before the fire, from which he first conceived the idea of a balloon.

When Galileo was in the Metropolitan temple of Persia, he observed the oscillations of a lamp; and this was the first conception of a correct method of measuring time.

The introduction of a telescope is due to a little boy playing with spectacle glasses.

The art of printing was suggested by a man cutting his name on the bark of a tree and impressing them on paper; on account of which we have books printed on good legible type on almost any and every subject sought by the human mind.

Little drops of water,
Little grains of sand,
Make the mighty ocean,
And the beauteous land.

Ages are made up of moments, fountains of drops, and the human character of little words and actions.

PHYSICIANS MAKING DRUNKARDS.

A law in this state makes it a penal offense for a physician to prescribe distilled stimulants for the use of his patients. An effort has been made to repeal it, but without success. The law may be a little arbitary in its provisions, but the evil at which it is aimed is one which should be abolished in some measure. Some physicians are in the habit of prescribing whisky, gin, or some other of the stronger drinks, in almost every case, and numerons persons form an appetite for strong drink by following the directions of their physician. This is true of both men and women, and it is through this channel, we have no doubt, that a majority of women, who become habitual drinkers, acquire the appetite which leads to their ruin. This is especially true when applied to those women who move in good society, but drink regularly and often.

Yet this is by no means the worst practice among physicians. It is bad enough and should be stopped in some way; but the practice of giving other stimulants is still more common and ruinous. Druggists tell us that the public would be perfectly astonished if they knew the extent to which morphine is used. There are more women using it than men, and those who are confined in its use generally get rid of the contents of a bottle in from one to two weeks. There is no person more to be pitied than those who have had this habit fastened upon them by a physician, unless it may be that of those who love them and are constant witnesses of the effects of the poison upon the mind and health of the unfortunate victim. We know of no punishment too severe for the physician who will prescribe the use of this or any other stimulant, to an extent that must naturally result in a confirmed habit which the unfortunate victim of his ignorant or heartless practice cannot conquer. —*Toledo Commercial.*

The most curious ant in the world is the parasol of the west Indies, if the accounts which we receive of its habits are correct. These ants walk in long procession, each one carrying a cut leaf over its head as a parasol in the sun, and they deposit these in holes ten or twelve feet under ground, apparently with no other object than to form a comfortable nest for a species of white snake, which is invariably found coiled up among them on digging out the deposits.

People who are always fishing for compliments do not need very long lines. They will get their best bites in shallow water.

A FASHIONABLE PRAYER.

Dear Lord, have mercy on my soul, and please let me have the French satin that I saw at Stewart's this morning, for which black lace flounces and overskirt, that dress would be very becoming to me, I know. If you grant my request. please let me have a new black lace shawl also, dear Lord.

I kneel before Thee to-night feeling perfectly happy, for Madame Emile has sent me home such a lovely bonnet! A most heavenly little *bijou*, composed of white satin, with coral ostrich tufts. For this favor I am feeling very grateful.

Give me, I pray Thee, an humble heart and a new green silk, with point lace trimmings. Let me not grow too fond of this vain and deceitful world, like other women, but make me exceeding ly gentle and aristocratic. When the winter fashions come, let them suit my style of beauty, and let there be plenty of puffing, plaiting, ruffles and flounces, for I dearly love them all.

Oh, Lord, let business detain my husband at H——, for he is not wanted at home at present. I wish to become acquainted with the tall, dark eyed foreigner, who is staying at Col. Longswallow's, opposite. Bring about an introduction, I beseech Thee, for Mr. Longswallow will not. Bless my children, and please send them a good nurse, for I have neither time nor inclination to look after them myself. And now, oh Lord, take care of me while I sleep, and pray keep watch over my diamonds. Amen.

Moses Skinner thus happily describes his silver wedding; "It being just 25 years since my first wife died, I thought I could not better celebrate the event than by having a grand silver wedding. Alas! 25 brief Summers and it seems but day before yesterday since I returned from her funeral, an altered man, and told the undertaker to call around for his pay in the Fall. The great trouble in silver weddings is tha you are apt to get two presents alike; but I flatter myself that I fixed 'em here. In the first place Mrs. Skinner and I looked over our stock of silverware to see what we were out of, and found that we could take about 25 square presents without getting bilions and then we invited a few children, in reference to nut crackers, butter-knives and other small fry. I issued my invitations two weeks beforehand, to give everybody a chance to buy a present, and in addition hinted in a delicate manner what I should like each to bring. So the invitations read very much like this:

Mrs. Charity Phleabottom and husband,
You are both asked
To Mr and Mrs Skinner's Silver Wedding
January 17th.
Please bring silver caster, with extra mustard jug.

Mrs. John Beezum and husband,
You are both asked
To Mr. and Mrs. Skinner's Silver Wedding
January 17th
We cherish fond hopes in your direction in reference to a silver teapot.

On the back of each invitation was a neat gilt scroll inclosing the words. 'Please avoid dollar stores,'

"To say the affair was a success would be defrauding the dictionary. I have looked that venerable pamphlet through, but fail to find a word that meets the case. Nothing short of seven syllables and a 'French roof' will do, so I give it up.

"On the arrival of the guests, I took charge of the presents with as much emotion as the value of the present called for. A silver pie knife I received with a husky tremor in my voice, while an elegant silver teapot caused me entirely to break down with emotion. But I soon recovered and went through the trying ordeal with unflinching bravery. Those who didn't bring presents were told they were not at home, which, of course, made the gathering more select. We received some very fine presents, including a share in a silver mine, a lock of gray hair streaked with silver, some silver tones from a maiden's voice, a silver beam from the moon, and some castor oil made from a silver caster.

"Then my wife and I stood up and recieved the silver-tongued congratulations of our guests on our happy married life. But I didn't need 'em; no, I should say not. When I see a man utterly crushed in spirit, and baldheaded at the premature age of 50, with a black eye constantly on hand, and a wife who is ready to furnish him with more black eyes at the lower market place, I pause ere I congratulate him on his matrimonial bliss. Not that I insinuate that Mrs. Skinner is not as gentle as a dove in the olive branch business. Not at all. I simply say that in a case like this I should probably pause to the extent of of a semicolon and a comma ere I congratulated him."

THE microscope reveals the fact a speck of potato rot the size of a pin head contains about two hundred ferocious little animals, biting and clawing each other savagely; and microscopists find in every teaspoonful of raw sugar about a thousand of the ugliest little wretches wriggling about, with horns and daggers ready to poke them through our vitals at any moment, and without the slightest compunction; in fact, they rather like it.

If you want to kill a man, put whisky into him, if you want to keep a dead man, put him into whisky.

A FAMILY OF GIANTS.

The *Scientific American* gives the following account of a remarkable Turkish family: On Friday, January 27th, the floor of our office trembled under the tread of the largest client that ever pressed its boards since Munn & Co. commenced business. Seating himself at our desk, on a chair (as much out of proportion to his bulk as an ordinary baby's chair would be to a common sized man) this huge individual explained the nature of a patent. Having transacted his business, and created a very unusual sensation among the numerous attaches of the office, he rose to depart. On his way out, our associate editor adroitly approached him, and succeeded in gaining from him the following statement, the publication of which, in our sober columns, will, we are sure, minister to that love of the marvelous, a trace of which always remains, even in most philosophical bosom.

The name of the individual referred to is Colonel Ruth Goshen, and he resides at present at Algonquin, Ill. He is a native of Turkey in Asia, and was born among the hills of Palestine. He is the fifteenth, and last child (the baby) of a family of fifteen—ten sons and five daughters—sired by a patriarch now ninety years old, living in the valley of Damascus, and by occupation a planter. This venerable sire weighs, at the present time, 520 pounds avoirdupois, and his wife, aged sixty-seven, weighs 560 pounds.

The entire family are living, and not one of them weighs less than 500 pounds. Not one of the family is less than seven feet in hight, and the Colonel is a stripling of only seven feet eight inches in his stockings. The oldest son weighs 620 pounds, and the youngest, our huge client, outstriping them all, weighs 650 pounds. He is not unduly fat, is merely what would be called moderately portly, and is thirty five years old.

He was a Colonel in the Austrian army in 1859, and a Colonel commanding in the Mexican army at the battle of Puebla, May 5th, 1862, in which the Mexicans were victorious. His father at one time resided at Leeds, England, but returned to Turkey in 1845.

The Colonel states that there has never been any sickness in the family to speak of, and that all are—so far as he knows—well and hearty. It was at Leipsic, Germany, that the Colonel met his fate in the person of a fair madchen, weighing one hundred and ninety pounds, and is five feet nine inches in hight, and the union has been blessed by two sons, who give promise of rivalling their father in stature.

The Colonel is a finely proportioned man, and walks with a firm elastic step. He is straight as an arrow, and has coal-black eyes, hair and moustache.

He is an actor by profession. He informs us that his last engagement was at Simm's Theatre, in Baltimore, and he expects to play an engagement in New York during the present season.

FASHIONABLE WOMEN.

Fashion kills more women than toil and sorrow. Obedience to fashion is a greater transgression of laws of woman nature, a greater injury to her physical and mental constitution, than the hardships of poverty and neglect. The slave woman at her task still lives and grows old, and sees two or three generations of her mistresses pass away. The washerwoman, with scarcely a ray of hope to cheer her in her toils, will live to see all her fashionable sisters all extinct. The kitchen maid is hearty and strong, when her lady has to be nursed like a sick baby. It is a sad truth that fashion-pampered women are almost worthless for all good ends of life; they have but little force of character, they have still less power of mind and will, and quite as little physical energy. They live for no great end. They are dolls, formed in the hands of milliners and servants, to be fed to order. If they rear children, servants and nurses do all, save to conceive and give them birth. And when reared, what are they? What do they amount to, but weak scions of the old stock? Who ever heard of a fashionable woman's child exhibiting any virtue and power of mind for which it became eminent? Read the biographies of our great and good men and good women. Not one of them had a fashionable mother.

A little boy who went to church was cautioned to remember the text, which was, "Why stand ye all day idle? Go into my vineyard, and whatsoever is right that will I pay thee." Johnny came home and was asked to repeat the text. He thought over it awhile, and then cried out: "What d'ye stand round here doin nuffin for; go in my barnyard and work. I'll make it all right with you."

An eccentric minister, in a large parish had seventeen couple to marry at once in a grand common service at church. In the course of the wedding he asked one of the men to pledge himself to the wrong woman. The man naturally protested, but was told, "Hold your tongue! I will marry you all now and here; you can sort yourselves going home."

WOMAN'S TRUE PLACE.

If I do not, at least, say that whatever else may lure or demand her, woman's true place, first and last, must be her home, I shall be untrue to any one standing great conviction. Women must make more of their homes, and make more of those who belong within them.

In this day of outward excitement and many outer attractions, the old and sacred integrity of home is endangered. The homes of to day are not as dear as those of a past generation. Great change has come over the people. Amusements multiply and press. Young people have taken out a license against their parents. Parents are rather afraid of their boys and girls. Home isn't the little nucleus radiating joy to each, each shedding back joy on it. It is a convenient place to have, and the father is banker; and the mother is the mistress of the laundry women and cooks; but the home is gone.

It is only a part of the outer world you have roofed over and lighted a fire in, which you have made dark with your frown, or uncomfortable by your whim. Once it was, what it must be again, the heart's holy of holies; once, no man would desecrate it by deserting it; once, all good impulse sprang thence, and all true character grew; once, the hearth at which father and mother sat was holy and dear, and if the generations are to get back old stability of character, and firmness of principle, and the old undefiled religion, it must be through these homes of which you, O, woman, are priestess, it must be by your garnishing them again with forgotten graces—re awaking gone out fires, and sanctifying anew the only place in which a human soul can be surely fitted for the work and warfare of life. Heaven help us if this desecration of the home goes into another generation!—A. O. F.

SELFISHNESS.

Live for some purpose in the world. Always act your part well. Fill up the measure of duty to others. Conduct yourselves so you shall be missed with sorrow when you are gone. Multitudes of our species are living such a selfish manner that they are not likely to be remembered after their disappearance. They leave behind them scarcely any traces of their existence, and are forgotten almost as though they had never been. They are, while they live, like some pebble lying unobserved among a million on the shore; and when they die they are like the same pebble thrown into the sea, which just ruffles the surface sinks, and is forgotten, without being missed from the beach. They are neither regretted by the rich, wanted by the poor, nor celebrated by the learned. Who has been the better for their life? Whose tears have they dried up? Whose wants supplied? Whose misery have they healed? Who would unbar the gate of life to readmit them to existence? or what face would greet them back again with a smile? Wretched unproductive mode of existence! Selfishness is its own curse; it is a starving vice. The man who does no good gets none. He is like the heath in the desert, neither yielding fruit nor seeing when good cometh; a stunted, dwarfish, miserable shrub.

A steam buggy has been introduced into New York to take the place of common vehicles of travel. A New York paper describes it as an affair that runs evenly with little or no trouble compared with driving a horse to a like vehicle. Beneath the seat and occupying the body of the vehicle is the boiler, which holds about three pails of water; the cylinders and other machinery are arranged between the axletrees and occupy so little space that they are hardly visible. The inventor claims that with fire produced from a single hod of coal he can run thirty-three miles with twenty pounds pressure of steam on our ordinary roads and streets, and that there is nothing about the affair to terrify the most restive horse. The vehicle can be built for from $300 to $500, according to style, and the inventor claims can be managed by a child after a short instruction. The inventor has traveled from Boston throughout the west and back as far as New York with the one now exhibiting at average cost, wear and tear included, of about two cents a mile.

The friends of temperance have reason to be well satisfied with the fact that Hon. Schuyler Colfax has spoken in their cause. Mr. Colfax has been a temperance man throughout his life, and we may be sure that all he says on the subject is the result of temperance before the Congressional Temperance society on Sunday last, having a large and distinguished audience, and from the reports in abstract published the effort was evidently an eloquent and forcible indictment of the voice of drunkenness.

The heart is the best card in the chance game of matrimony—sometimes overcome by diamonds and knaves, often won by tricks, and occasionally treated in a shuffling manner, and then cut altogether.

"Now gentlemen," said Sheridan to his guests as the ladies left the room, "let us understand each other. Are we to drink like men or like beasts?" Somewhat indignant, the guests exclaimed, "Like men of course." "Then," he replied, "we are agoing to get fully drunk, for brutes never drink more than they want."

A lady was passing along a street the other day, when she was met by a young man full of bad whisky, who in staggering past stepped on her dress. Turning to the lady, he remarked apologetically, "Hoops take up too much room." To which the lady quietly replied, "Not as much as whisky, sir," and passed on.

Massillon, Wednesday, February 22.

Y. M. C. A.—In accordance with an announcement last week meetings were held commencing on last Wednesday evening, in the M. E. church, Thursday evening in the Presbyterian church, which were fully attended by members of the various religious denominations. A delegation of gentlemen was here who take deep interest in this movement, principal among whom is Mr. Burnell of Chicago; and others from different points in the country. They attended similar meetings at other towns in this part of the state, and met with large prospects of success. Our Salem neigubors are enthusiastic in this behalf, and raised some $5000 to carry on the work—other places have been more or less demonstrative in the same direction.

On the first evening the exercises were varied, but confined principally to a sort of initiatory programe, so that our citizens could form an idea of the nature of such associations as carried on elsewhere. The large audiences manifested much interest in what transpired, but the brief addresses of Mr. Burnell, the noted lay preacher, were listened to with more than ordinary attention. As he is a leading spirit in the movement, he is prepared to lead and advise others who are disposed to contribute or aid in instituting these associations whenever desirable; and here his advice, directions and suggestions appeared to meet with general approval. Some half dozen other gentlemen who were with him also evinced a deep interest in the movement here. Messrs. Tracy and Reed, of Mansfield; Allen, of Salem; Kirk, of Canton, and gentlemen from other towns not far away, contributed their aid as far as possible in giving a successful impetus to the contemplated association.

Thursday evening, at a large meeting in the Presbyterian church, after the ordinary exercises and considerable talk by various individuals, an organization was effected. Joseph K. Merwin was chosen president, Dr. J. C. Good, and Bro. J. Hoover, Jr., of the American, secretaries, and Joseph Watson treasurer. Other committees and officers were selected but we have not got them here. Taking it all together everything appeared propitious for a success. One feature about the movement favors this conclusion, and that is, members of different churches seemed to harmonize and co-operate in a fraternal spirit. Of course it requires some financial means to meet expenses that will be incurred, and that are unavoidable, and on Thursday evening that part of the business was attended with a fair show of success, several hundred dollars being raised to meet such contingencies. A committee has been appointed to secure a suitable place of meeting, to provide it with accommodations and to perform such other duties as devolve upon them. Meetings were held also on Friday and Saturday evenings at the different churches for religious exercises, and to further perfect the organization. For part of the programme is to hold daily prayer meetings.

However honestly people may differ as to the religious features of these associations, there is one characteristic connected with them which cannot but commend itself to all who have the welfare of community, and especially the young, at heart. It is proposed to provide an abundant supply of reading matter at the rooms of this association, so that young men and others similarly disposed, may have a quiet, well regulated place at which to convene, especially in the evenings, and spend the time in improving their minds by reading books, papers, magazines, tracts, or whatever may be had there in the way of literature. Massillon has long been in sad need of some such resort, and we are pleased to see that this movement is about to be crowned with success.

Salem is sometimes voted for the progressive ideas of some of its people, and hunkers are disposed to stigmatise the place on that account. We claim to know the general reputation of the citizens of that place, and regard them as a moral aspect, as worthy examples for imitation by conservatives elsewhere. There may be a few of the "d—l sort of folks there, on certain points, but such are found everywhere, and often these people who are set down as erratic are the salt of the earth. The fact of scandal, *in their view*, that Quakers are waging against the people of that place is, that somebody there is making an effort to prevent the sale of tobacco. This idea to one who has a tobacco quid in his facial foramen as big as a hen's egg, and as offensive to the smell as the corpus of a dead animal in a state of putrifaction, is terrible to contemplate—well, the unpardonable sin. If there is such a project in Salem or any other town that has the courage to establish and enforce it, we say, yea and amen to it. Such a vicinity would be a paradise compared with those places reeking with the smoke and fumes of the poisonous weed.

The Northern Ohio Relief Association, having for its object the work of collecting and sending aid to the many needy and destitute people of France, who have been impoverished by the late war, has appointed Gen. Kent Jarvis of this place as the proper person to recieve contributions for this praiseworthy object. Flour, grain, seeds and such valuable productions may be placed in his charge for this purpose.

To us it dont look very manly to pitch into a feller, especially when he has gone off about 3000 miles from home, as was done in a long, lean, prosy, weak article of last week in the *American* concerning Percy Pease. The young man may be ever so greatly of the shortcomings preferred against him, but, as before intimated, it looks rather out of place to attack him under such circumstances. If the writer had exploded his ammunition while Mr. P. was here it would have given him a chance for defense—otherwise it is not quite so wise.

Mrs. Waisbrooker came here last week and remained until Monday. She is now engaged in selling books and disposed of several copies here. All who have read them pronounce them worthy of public attention, as their tendency is to lead to a higher life. Her teachings elicit thought on questions of momentous import, and whoever has the satisfaction of listening to her lectures cannot but be pleased, if they can appreciate the noble aspirations of the soul. During Mrs. W.'s stay here she was prevailed upon to lecture in Madison Hall, on Sunday afternoon, to a larger audience than we could, under the circumstances, expect to see. All present who can appreciate an instructive lecture were especially gratified with the effort, the theme of which was natural religion. There was nothing said that need disturb the sensibilities of the most sensitive orthodoxy, yet the teachings were radically different from those heard from a majority of the pulpits of this country. The speaker illustrated her ideas by some of the most appropriate as well as beautiful comparisons, in language comprehensive and forcible. The audience was principally made up of thinkers, those who are competent to judge and decide for themselves, and they were unanimous in unstinted praise of this lecture in favor of progress.

Recently it has been assertained in many places in Ohio that women *have* rights and they are availing themselves of those rights very effectively. True, they have not yet got to voting, but a good many of these are giving the grogshops the biggest doses of legal suasion they ever dreamed of. All over the state we read of cases in which long suffering women are invoking the aid of the laws for redress, and they are making many a grogseller disgorge his ill gotten gains, which often amount to hundreds of dollars in favor of destitute and more than half starved families. Our women here are quite patient in this regard, but some of them will break loose one of these days, and the way they will cause the ela boose to beuseful will be an example worthy of imitation.

On the first night of the forming of a Y. M. C. A., in answering the questions proposed by the audience—and this is a very agreeable part of the programme—the propriety of using tobacco in any way was propounded, Mr. Burnell hit off the pernicious practice in words that ought to burn holes in every ones pocket who carries the filthy article, so that it may be forever lost. He characterized its use as unchristian—directly at variance with the professions of all who would crucify perverted appetite, and make them subordinate to the higher and noble aspirations of the good every where. No man, be his professions of holiness ever so great, can say truly that he uses the filthy weed dy the grace of Gob.

The Toledo *Commercial* has suggested the name of Martin Welker, M. C., of Wooster, as a suitable person for republican candidate for governor, and a number of other papers concur in the idea. The last number of that excellent paper, the Geauga *Democrat*, proposes the name of Gen. Garfield for the same position. Both are excellent men, have done the state much service, and whichever (if either) is nominated he will have hosts of friends. Now, it is perhaps as well to not commit ourselves in favor of any person, though it is well for the friends of any man to make suggestions.

Germantown wool and fancy yarns at Humberger & Son's.

Steps are said to have been taken by the council of Cincinnatti to legalize, by license, so far as that body can do so, houses of prostitution. Very properly the better class of people there are earnestly protesting and petitioning against such a measure. Decent people don't want to lend their influence in behalf of such resorts, as they will necessarily do if they consent to license them by any authority whatever. Licensing crime is an old trick of the devil to make iniquity look respectable.

The prohibition convention meets to-day at Delaware, this state, for the purpose of nominating a ticket for state officers. Indications are that it will be well attended, as much interest is awakened in that behalf.

Suit for $2000 damages has been brought against liquor sellers at Monroeville, Huron county. The plaintiff in the case was much abused and mutilated by a drunken fellow, and resorts to the law for redress. The way things are going now these grogsellers may took out.

Some of the liquorites in our legislature are making efforts to have the law holding owners of grogshops responsible, where retailers are worthless, repealed. Petitions are in circulation against such a movement, and all the friends of temperance are asked to be active in signing them.

On the other hand, Mr. Little of Greene county has introduced a bill providing that all money spent for liquor shall be recoverable by families or persons who are aggrieved by such a course. Why not? A man that gives money, which should go to support his family, for liquor, fools it away for no consideration, and often worse than none.

We notice that the temperance cause in many places in this state is in a flourishing condition, and that divisions, lodges and other organizations are swelling their numbers rapidly. In this vicinity we are rather quiet, but there is a faithful few who are not disheartened, and are still determined to push on—enemies and indifferents to the contrary anyhow.

The numerous troubles which have so disastrously visited the French people on account of the great warfare now, it is hoped, coming to a close. From all that we can gather of the news from that disturbed country the government, if it has any, and the people have concluded to submit to the manifest destiny which has for the last half year been impending over them. The warring parties have buried the hatchet and are now smoking the pipe of peace. Even those truculent leaders of some of the divisions of the French army have ceased trying to inspire their misled followers to wage further combat. This is a consummation long and earnestly wished for by neighboring nations, as well as our own. The useless effusion of blood, and the loss of vast amounts of treasures in money and riches in the shape of the most beautiful improvements on the earth, have ceased, and now the white winged angel of peace will bestow her blessings upon a land so recently reeking with the smoke of war and the smell of blood. An election has recently been held is said to have resulted in the choice of a mixed selection of men belonging to different factions. A majority thus chosen are reported as being adherents to one or the other of the monarchial parties of that country—Orleanists and Bourbons, with perhaps a portion of the followers of Napoleon. But a small portion of so called republicans are chosen, which seems to indicate that the French people are not yet prepared to govern themselves. Like the Spaniards they will soon be looking up a king to take care of them. That country stands in great need of the schoolmaster. Prussia, although governed by a monarch, is far better prepared to be a republic than are the French, because the people there are intelligent, generally well educated. Their system of free schools compels all the children to receive instructions, at the public schools, between the ages of seven and sixteen years. The seat of the French government is to be removed from Paris to Bordeaux—at least it looks that way now.

Some of the Cleveland people have been unusually excited during the last few days. Thursday the 16th inst Miss Jennie Droz shot Mr. Fisk through the head, killing him immediately. From the way the account reads the young woman had been badly treated by F., became reckless—had a spasm of mental aberration called insanity—purchased a pistol and commited the fatal deed.

Friday two black men had a quarrel about a woman when one fatally stabbed the other. The murderer fled, and the authorities were in pursuit if him. Miss Droz, after the coroner's inquest, was taken to prison.

Josiah Thompson was elected, on last Saturday, by the people of Columbiana county, to the legislature, to fill the vacancy caused by the death of G. I. Young.

MR. EDITOR:—A Young Men's Christian Association is about to be organized in this place, and as they have no rooms for their meetings, allow me to suggest—lest the association should lack the courage to do so—that the proprietors of the opera house—if they got the needs of a room for so worthy an object, might find it in their hearts to imitate the example of that liberal Cantonian, and give this association the free use for ten or fifteen years, of that room in the opera building first intended for a concert room. Such an act would very beautifully accord with the principles they profess. We can imagine the great satisfaction these Christian owners would realize on waking up, say on the first of April, and find that beautiful room changed from a billiard and drinking saloon to a place of prayer and praise. NEW 7-30 GOLD LOAN.

Safe! Profitable! Permanent!

Jay Cooke & Co.,

offer for sale at par and accrued interest the first Mortgage Land Grant Gold Bonds of the

Northern Pacific Railroad Co.

Those bonds are secured, First, by a First Mortgage on the railroad itself, its rolling stock, and all equipments; Second, by a First Mortgage on its entire Land Grant, being more than twenty two thousand acres of land to each mile of the road.

The bonds are free from United States tax, the principal and interest are payable in gold—the principal at the end of thirty years, and the interest semi annually, at the rate of seven and three tenths per cent per annum.

They are issued in denominations of $100 $500, $1,000, $5,000, and $10,000.

The trustees under the mortgage are Jay Cooke, of Philadelphia, and J. Edgar Thomson, President of the Pennsylvania Central Railroad Co.

These Northern Pacific 7 30 Bonds will at all times before maturity, be receivable at temperament premium (or 1 10) in exchange for the company's lands at their lowest cash price.

In addition to their absolute safety, these bonds yield an income larger, we believe, than any other first class security. Persons holding United States 5 20's can, by converting them into Northern Pacifics, increase their yearly income one third, and still have a perfectly reliable investment.

How to Get Them—Your nearest bank or banker will supply these bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our agents, who will allow the highest current price for all marketable securities.

Those living in localities remote from banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific bonds at our own risk, and without cost to the investor. For further particulars pamphlets, maps, etc., call on or address the undersigned, or any of the banks or bankers employed to sell this loan.

DR. WHITTLESEY, ERQ.

Dear Sir:—Having stated it verbally to you, I have no hesitation in writing the fact, although not disposed in favor or to recommend patent medicines in general.

I do this more readily in regard to the sick headache cure prepared by Dr. Whittlesey, of Norwalk, Ohio. I have analyzed and tried it, and I recommend it as one of the best dyspepsia cures ever invented, and I feel that in recommending Whittlesey's cure I am doing at act of justice to the compounder of it, and an act of benevolence to those afflicted with dyspepsia and sick headache for which it is recommended.

Yours Respectfully,
FRANCIS RAAS, M D.

WALTHAM WATCHES

The extensive use of these watches for the last fifteen years by railway conductors, engineers and expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To that class in all these respects, is to decide the question as the real value of these time-keepers.

[illegible] of

More than 50,000 of these watches are now speaking for themselves in the pocket of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enables them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch making originating in this country and in Europe only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction to prevent damage to the train by the breakage of main-springs, is only with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best and faultless.

Hardened and tempered hair-spring, now universally admitted by watchmaker to be the bests, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps protecting the movement from dust, and lessening the frequent cleaning necessary in other watches.

Our patent stem-winder, or keyless watch is already a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to ensure accuracy, cleanliness durability and convenience, must prove invaluable.

The trademarks of various styles made by the Company are as follows:

American Watch Co., Waltham, Mass.
Amer. Watch Co., Waltham, Mass
American Watch Co, Cresent St, Waltham, Mass.
Appleton, Tracy & Co, Waltham Mass.
Waltham Watch Co, Waltham, Mass,
P. S Bartlett, Waltham, Mass.
Wm. Ellery, Waltham, Mass.
Home Watch Co, Boston, Mass.

Examine the spelling of these names before buying. Any variation even of a single letter indicates a counterfiet.

For sale by the leading jewelers. No watches retailed by the Company.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as its virtues became known, its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers, find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, only to assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the numerous reports we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints, arising from torpidity of the Liver*, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Unanswerable Arguments.

Established facts are silent arguments which neither tongue or pen can shake, and it is upon established facts that the reputation of Hostetter's Stomach Bitters, as a health preserving elixir, and a wholesome and powerful remedy, is based When witnesses come forward in crowds, year after year, and reiterate the same statements in relation to the beneficial effects of a medicine upon themselves, disbelief in the efficacy is literally impossible. The credentials of his unequaled tonic and alterative, extending over a period of nearly twenty years, include individuals of nearly every class, and residents of every clime, and refer to the most prevalent among the complaints which afflict and harass the human family Either a multitude of people, so eager to each other, have annually been seized with an insane and motiveless desire to deceive the public, or Hostetter's bitters, for no less than a fifth of a century, have been affording relief to to sufferers from indigestion, fever and ague, biliousness, general debility, and nervous disorders, as no other preparation has ever imparted. To day, while the eyes of the reader are upon these lines, tens of thousands of persons of both sexes are relying upon the bitters as a sure defence against the ailments which the present season engenders, and their confidence is not misplaced. The local portions which interested dealers some times endeavor to foist upon the sick in its stead, are every where meeting the fate that is due to fraud and imposture, while the demand for the great vegetable tonic is constantly increasing.

COMPOUND FLUID
Extract Catawba
GRAPE PILLS.

Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juices.

For Liver Complaints, Jaundice, Bilious Affections, Sick or Nervous Headache, Costiveness, etc. Purely vegetable containing no Mercury, Minerals or Deleterious drugs.

H

These pills are the most delightfully pleasant purgative, superseding castor oil, salts, magnetia, etc, There is nothing more acceptable to the stomach. They give tone and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few day's use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar coated, from the fact that sugar coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The Catawba Grape Pills, being pleasant in taste and odor, do not necessitate their being sugar coated, Price 50 cents per box.

E

Henry T. Helmbold's

Will radically exterminate from the system scrofula, syphilis, fever sores, ulcers, sore eyes sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, runnings from the ear, white swellings tumors, cancerous affections, nodes, tickets, glandular swellings, night sweats, rash, dyspepsia, and all diseases that have been established in the system for years.

L

Being prepared expressly for the above complaints, its blood purifying propensities are greater than any other preparation of Sarsaparilla. It gives the complection a clear and healthy color, and restores the patient to a state of health and purity. And is the only reliable remedy for the cure of pains and swellings of the bones, ulcerations of the throat and legs, blotches, pimbles, erysipelas and all scaly eruptions of the skin, and beautifying the complexion. Price $1,50 per bottle.

M

Henry T. Helmbold's
CONCENTRATED
Fluid Extract Buchu,

The Great Diuretic, has cured every case of diabetes in which it has been given. Irritation of the neck of the bladder and inflamation of the kidneys, ulceration of the kidneys and bladder, retention of the urine, gravel, milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with loss of memory, indisposition, weak nerves, trembling, pain in the back, hot hands, dryness of the skin, and a host of other symptoms. Used by persons from the ages of eighteen to twenty-five, and from thirty five to fifty-five, or in the decline or change of life; after confinement or labor pains; bed wetting in children.

B

Helmbold's Extract Buchu is Diuretic and blood purifying, and cures diseases arising from dissipation, excess and imprudences in life, impurities of the blood, etc., superseded equally in affections in which it is used, and syphilic affections—in these affections used in connection with Helmbold's rose wash.

Ladies, In many affections peculiar to ladies, the buchu is unequaled by any other remedy—as in chlorosis, irregularity, ulcerated state of the uterus, leucorrhœa or whites sterility, and for all complaints incident to the sex, whether arising from indiscretion or dissipation It is prescribed by physicians and midwives for the enfeebled and delicate constitutions of both sexes, and all ages.

O

H. T HELMBOLD'S EXTRACT BUCHU cures diseases arising from imprudences, habits of dissipation, etc. in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It causes a frequent desire, and gives strength to urinate, thereby removing obstructions, ulcerations and curing strictures of the urethra, so frequent in this class of diseases

Use Helmbold's Extract Buchu for all affections and diseases of the urinary organs, whether existing in male or female, from whatever cause originating and no matter of how long standing. Price $1,50 cents per bottle.

L

HELMBOLD'S IMPROVED ROSE WASH and will cannot be surpassed as a face wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, indurations of the cutaneous membrane, etc., dispels redness and incipient inflamation, hives, rash, moth patches, dryness of the scalp or skin, frost bites, and all purposes for which salves and ointments are used. It is an excellent Lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts Buchu, Sarsaparilla, and Catawaba Grape Pills, in such diseases as recommended cannot be surpassed. Price $1 per bottle.

Is different from all others. It is composed of the pure juices or vital principle of roots herbs, and barks, (or as medicinally termed extracts), the worthless or inert portions of the ingredients not being used. Therefore, in one bottle of this bitters there is contained as much medicinal virtue as will be found in several gallons of ordinary mixtures The roots &c used in this bitters are grown in Germany, their vital principles extracted in that country by a scientific chemist and forwarded to the manufactory in this city, where they are compounded and bottled Containing no spirituous ingredients, this bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use, they cannot make drunkards, and cannot under any circumstances, have any but a beneficial effect.

Hoofland's German Tonic

Was compounded for those not inclined to extreme bitters, and is intended for use in cases where some alcoholic stimulant is required in connection with the tonic properties of the bitters. Each bottle of the tonic contains one bottle of the bitters, combined with pure Santa Cruz Rum, and flavored in such a manner that the extreme bitterness of the bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the bitters. The price of the tonic is $1,50 per bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medicinal preparation should contain only the best ingredients, and they who expect to obtain a cheap compound will most certainly be cheated.

They are the greatest known Remedies

For Liver Complaint, Dyspepsia, Nervous Debility, Jaundice, Diseases of the Kidneys, Eruptions of the Skin, and all diseases arising from a disordered Liver, or Stomach, or Impurity of the Blood.

Read the following symptoms:

Constipation, flatulence, inward piles, fulness of blood to the head, acidity of the stomach, nausea, heartburn, disgust for food, fullness or weight in the stomach, sour eructations, sinking or fluttering at the pit of the stomach, swiming of the head, hurried or difficult breathing, fluttering at the heart, choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, dull pain in the head, deficiency of perspiration, yellowness of the skin, and eyes, pain in the side, back, chest, limbs, &c., sudden flushes of heat, burning in the flesh, constant imaginings of evil, and great depression of spirits. All these indicate disease of the liver or digestive organs combined with impure blood.

The use of the bitters or tonic will soon cause the above symptoms to disappear, and the patient will become well and healthy.

Dr. Hoofland's Greek Oil,

LIGHTNING CURE FOR ALL KINDS OF PAINS AND ACHES.

APPLIED INTERNALLY.—It will cure kidney complaints, backaches, sick headaches, colic, dysentery, diarrhœa, cholera Infantum, cholera morbus, cramps, and pains in the stomach, fever and ague, colds, coughs Asthma, &c.

APPLIED EXTERNALLY.—It will cure all kinds of pains and aches, such as rheumatism; neuralgia, toothache, chilblains, sprains bruises, frost bites, headaches, pains in the back and loins, pains in the joints or limbs, stings of insects, ringworms, &c.

Dr Hoofland's Podophyllin

Substitute for Mercury Pill.

TWO PILLS A DOSE.

The most powerful, yet innocent vegetable cathartic known.

It is not necessary to take a handful of these pills to produce the desired effect; two of them act quickly and, powerfully, cleansing the liver, stomach and bowels of all impurities. The principal ingredient is Podophyllin, or the alcoholic extract of mandrake which is by many times more powerful, acting, and searching, than the mandrake itself. Its peculiar action is upon the liver, cleaning it speedily from all obstructions, with all the power of mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case They never fail,

In cases of liver complaint, dyspepsia, and extreme costiveness, Dr Hoofland's German Bitterrs or tonic should be used in connection with the pills. The tonic effects of the bitters or tonic builds up the system. The bitters or tonic purifies the blood, strengthening the nerves, regulates the liver and gives strength, energy, and vigor.

Keep your bowels active with the pills, and tone up the system with bitters or tonic, and no disease can retain its hold, or ever assail you.

These medicines are sold by all druggists and dealers in medicines everywhere.

Recollect that it is Dr. Hoofland's German Remedies, that are so universally used and highly recommended; and do not allow the druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These remedies will be sent by express to any locality, upon application to the principal office, at the German Medical Store, 631 Arch Street, Pa.

Chas. M. Evans, Prop.

Formerly C. M. Jackson & Co.

These remedies are for sale by druggists, storekeepers, and medicine dealers, everywhere throughout the United States, Canadas, So America and the West Indies. 880-1y

DOCTOR OLIN,

THE largest engaged and most successful physician in Chicago, in the treatment of *venereal, sexual,* and all *private diseases,* all *urinary diseases,* Syphilitic or Mercurial affections of the Throat, Skin, or bones are treated with unparalled success.

Spermatorhea, Sexual Debility and Impotency, as the result of self abuse in youth, excesses in maturer years, or other causes and producing some of the following effects, viz: *Nocturnal emissions,* blotches on the face, *dizziness,* dimness of sight, confusion of ideas, evil forebodings, aversion to society *if females,* loss of *memory,* and sexual power, rendering marriage improper and life miserable, are permanently cured. The Doctor's opportunities in hospital and private practice are unsurpassed in Chicago or any other city. Offices, parlors, laboratory and appointments are unrivaled in the West and unsurpassed anywhere.

Age, with experience, can be relied upon, and the doctor can refer to many physicians throughout the country. In past success and present position he stands without a competitor. The writings of a physician whose reputation is union wide should be worth reading.

Doctor Olin publishes a *Medical Pamphlet* relating to Venereal Diseases, and the disastrous and varied consequences of Self Abuse, that will be sent to any address in plain sealed envelope for two stamps, *private circular to Ladies* one stamp. Many physicians introduce patients to the Doctor after reading his medical pamphlet. Communications confidential Consultations by letter or at the office, free.

NEWSPAPERARCHIVE®

There is a difference between ignorance and error; ignorance is stone blind, and error is near sighted; ignorance stands still, and error only moves to run against a post.

A young lady hesitating for a word in describing the character of a rejected suiter, said: "He is not a tyrant, not exactly domineering, but—'Dogmatic," suggested her friend. "No, he has not dignity enough for that; I think pupmatic would convey my meaning admirably."

A new marriage code has been introduced in England. This is the text: "I will continue to love my husband so long as he is lovable, honor him so long as he remains honorable, and obey him so long as his commands are just and reasonable."

Dr. Oldham, an Englishman of scientific attainments, confident that no coal beds existed in that portion of India known as the Madras Presidency, once remarked that he would eat al the coal ever found there. The *Times* of India states that excellent and abundant deposits have been discovered, and that great anxiety is consequently felt for Dr. Oldham, as he is a man of strict veracity and honor.

Sindey Smith says, regarding the unnecessary consumption of food:—'According to my computation, I have eaten and drank, between my tenth and seventieth year, forty four horse wagon loads more than was good for me.'

An inebriated individual fell down stairs the other night, and a passer by fearing him seriously injured ran to pick him up. But the man majestically staggered to his feet and in response to the proffered aid, roared out: 'Now you jes' let me 'lone. Was' no alobberin' round me. I allus come down stairs that way.'

A unique recommendation given by a clergyman for a friend who desired a situation is as follows: 'He is perfectly human, and has made some of the ablest mistakes that ever were made, showing in their happening and in their correcting a hopeful, conscious and growing manhood.'

A wife who had been lecturing her husband for coming home intoxicated, became incensed at his indifference, and exclaimed: 'Oh, that I could wring tears of anguish from your eyes!' To which the hardened wretch hiccupped, 'Tai—'tai—taint no use, old woman to bo—bo—bore for water here!'

A would be school teacher in Alabama recently replied to a question by one of the examiners, 'Do you think the world is round or flat?' by saying. 'Well, some people think one way and some another, and I'll teach round or flat, just as the parents please."

The Newark Courier says that John S. Hart, L.L. D., principal of the New Jersey state normal school, and author of a Manual of Composition and Rhetoric, on page two hundred and eighty-six of that work defines fiction as a 'story made up of facts invented for that purpose.'

An English constable arrested three men, thinking they were deserters.—He said he inferred the fact from their martial bearing, and when asked what he meant by that? replied, 'They were very free with their money, were drunk, swore a great deal and wanted to fight.'

A Boston minister says he once preached on the recognition of friends in the future, and was told after service by a hearer that it would be more to the point to preach about the recognition of friends here, as he had been in the church twenty years, and didn't know any of its members.

A gentleman in conversation with Dr. Johnson, having to some of the usual arguments for drinking added this, 'You know, sir drinking drives away care, and makes us forget what is disagreeable; would you not allow a man to drink for that reason?' 'Yes, sir, if he sat next to you,' replied Dr Johnson.

An editor thus speaks of a cotemporary: 'He is too lazy to earn a meal and too mean to enjoy one. He was never generous but once, and that was when he gave the itch to his apprentice. So much for the goodness of his heart. Of his industry, the public may the better judge when we state that the only day he ever worked was the day he mistook castor oil for honey.'

One after another, the papers are giving their testimony against putting on black as a sign of morning. The Pittsburg United Presbyterian says: "A family will enshroud itself in black for years, as an expression of sorrow for one of its dead. That one may be in heaven, rejoicing with joy unspeakable, while relatives on earth are moving about in heavy sombre garments, making their lives as they can. There is no fitness in the thing. It is often a mere mockery of sorrow." It also objects to the practice on the ground of its expense to the poor.

WHAT IS AN EDITOR?—Some one answers this question thus; "Who, he is the man who reads newspapers, writes articles on any subject, talks to all who call, is blamed for a hundred things which are nobody's business but his own, helps people to get in office (who for get all about it afterward), and frequently gets cheated out of half he earns. He works and does more to build up a town than any other body, and the miser and the fogy are benefited thereby; yet they will say that the editor's paper is of no account will not advertise or take the paper; but will borrow it. Who would not be an editor?"

The Independent,

Massillon, Ohio.

Is now Seven Years Old, and

"Still Lives."

Without boasting of being an organ of immense influence, we may with diffidence claim that the paper is not without usefulness in the right direction, ever contending for justice on all the living issues of the day. But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as we can come at it—and for such as are removing elsewhere we hope to make the INDEPENDENT a very welcome visitor.

Dr. J. LONG.

Eclectic Physician,

Has located himself at Massillon, O., for the treatment of

Female & Chronic Diseases.

Office on Main street, four doors east of the American Hotel.

All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally, must depend upon the judgement of both patient and physician.

Give Dr. Long a call, and satisfy yourselves whether he understands your cases sufficiently well to treat them successfully.

Dr. Long may be consulted in the German and English languages. Address letters,

A LECTURE
TO YOUNG MEN.

Just Published in a Sealed Envelope, Price six cents. A Lecture on the Nature, Treatment and Radical Cure of

of Spermatorrhœa, or Seminal weakness, involuntary seminal losses, impotency, mental and physical incapacity, impediments to marriage, etc.; also, consumption, epilepsy, and fits, induced by self indulgence or sexual extravagance.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, postpaid on receipt of six cents or two post stamps.

DR. WHITTIER

Continues to treat all private diseases, syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhœa or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and privare diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

JOS. COLEMAN.

I do not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures consumption, when the lungs are half consumed, in short, will cure all diseases whether of mind, body, or estate, make men live forever, and leave death to play for want of work, and is designed to make our sublunary sphere a blissful paradise, to which heaven itself shall be but a side show. You have heard enough of that kind of humbuggery. But when I tell you that Dr. Sage's Catarrh Remedy will cure the worst cases of catarrh in the head, I only assert that which thousands can testify to. I will pay $500 reward for a case that I cannot cure. A pamphlet giving symptoms and other information sent free to any address This remedy is

Sold by Most Druggists in all parts of the World.

Price 50 cents. Sent by mail, postpaid, on receipt of sixty cents, or four packages for two dollars. Beware of counterfeits and worthless imitations. See that my private stamp, which is a positive guarantee of genuineness, is upon the outside wrapper. Remember that this private stamp, issued by the U S government expressly for stamping my medicines, has my portrait name and address and the words U S Certificate of Genuineness engraved upon it, and needless to be mistaken. Don't be swindled by travelers and others representing themselves as Dr. Sage, I am the only man now living that has the knowledge and right to manufacture the genuine Dr. Sage's Catarrh Remedy, and I never travel to sell this medicine.
